Purpose

This document outlines Sporting Futures Training/ Educational Futures strategy of how we will meet our duty to comply with the UK Government's Counter-Terrorism Act 2015 and as an organisation how we will align with the government's Prevent Strategy and safeguard our staff and learners.

This document is designed to work in conjunction with Sporting Futures Training Educational Futures Risk Assessment and Action Plan

Background

The Counter-Terrorism and Security Act 2015 became law in the United Kingdom in April 2015; it introduces a series of measures designed to tackle radicalisation. Organisations face a statutory duty to help people from being radicalised and drawn into terrorism; there is a requirement to have policies in place to guard against the threat of radicalisation.

Alongside the Act sits the UK Government's CONTEST strategy which has four strands – PREVENT being one of them – as follows:

- **PURSUE:** To stop terrorist attacks;
- **PREVENT:** To stop people becoming terrorists or supporting terrorism;
- **PROTECT:** To strengthen our protection against a terrorist attack; and
- **PREPARE:** To mitigate the impact of a terrorist attack.

Sporting Futures Training/ Educational Futures Prevent Strategy

The **PREVENT** strategy for Sporting Futures Training/ Educational Futures has three key elements:

- **Training** - Staff awareness is raised through suitable, practical training methods and their feedback is encouraged.
- **Process** - Reporting mechanisms and process that support the strategy. Risks are identified and reported to all relevant parties, both internal and external.
- **Responsibility** – All employees and Learners of Sporting Futures Training/ Educational Futures are vigilant and will promote our organisation's stand on radicalisation and extremism.
